Congratulations to our Founder for completing her certification in Human Rights. She believes that addressing homelessness within the context of human rights advocacy is crucial. We will raise awareness by launching campaigns to highlight the human rights of people experiencing homelessness, emphasizing their right to shelter, healthcare, and safety. Provide training for advocates, social workers, and community members on how to support individuals experiencing homelessness, including navigating services and legal rights. Work with local governments to promote policies that protect the rights of homeless individuals, such as affordable housing initiatives and access to social services. Connect with homeless communities to understand their needs and

concerns, ensuring their voices are included in advocacy efforts. Collaborate with local shelters, food banks, and service organizations to create comprehensive support networks. This holistic approach can help address the root causes of homelessness and promote the dignity and rights of those affected.

The CFC is a Federal tradition and the official workplace-giving campaign for Federal employees and retirees. Since its inception in 1961, the CFC has raised more than \$8.7 billion for charities and people in need. Support our homeless Veterans today!

Give. Try it – just \$5 per paycheck to your favorite charity makes a big impact. There are so many ways to give -- online, through the CFC Giving Mobile App, or if you like pen and paper, download the [PDF pledge form](#). Our favorite option is giving online. All you have to do is go to GiveCFC.org and click DONATE. Then set up your profile, choose your charities, and designate your payment option: payroll deduction, credit/debit card, or e-check.
